Who am I?

- David Mayo
- dcmayo@moreheadstate.edu
- Space Science Center
Research Engineer
- MSU computer science
class of 2022
- Working on NASA's LEMS-A3
mission

Use or disclosure of data contained on this page is subject to the restriction(s) on the title page of this document.

What is LEMS-A3?

The Lunar Environment Monitoring Station for Artemis III (LEMS-A3) is a compact, autonomous, and self-sustaining geophysical instrument package that enables multi-year, in-situ, monitoring of the Moon's seismic environment.

- It is a self-powered, self-managed, and self-communicating flight system.
- It conducts science observations on the lunar surface continuously (day and night).

Use or disclosure of data contained on this page is subject to the restriction(s) on the title page of this document.

Mission Operations Center (MOC)

- This is my job!
- The whole mission is going to be run from MSU
- We need to write a whole bunch of code to make this happen:
 - GUI for monitoring spacecraft during communications sessions
 - File transfer to/from spacecraft
 - File transfer to/from NASA
 - Analyze spacecraft data
 - Analyze potential landing zones on moon
 - Validate spacecraft commands before testing
 - Buncha other stuff!

Use or disclosure of data contained on this page is subject to the restriction(s) on the title page of this document.

I need your help!

I (David Mayo, dcmayo@moreheadstate.edu) can hire intern(s) (unpaid), and potentially a student staff member (paid).

Requirements:

- American citizen (non-negotiable)
- Able to get to the Space Science Center in person
- Can devote at least 5 hours (intern) or at least 10 to 20 hours (staff) a week
- Pretty comfortable with Python

Nice to have:

- Knowledge of Linux
- Knowledge of Pandas/Numpy/Matplotlib
- Knowledge of git/GitHub
- Probably at least a sophomore (intern) or junior (staff)

5:30 PM 09.04

Explore the Space Science
Center's projects and clubs!
Come enjoy an exciting
evening. Engage with staff
and students to learn about
their projects and find out
how you can participate!

Snacks and Drinks to follow!
